

Active relations of the hospital with foreign partners- cooperation and improvement of service quality

Vilma Levinger

After small and big therapeutic swimming- pools of the hospital were restructured consumption of water decreased by 56 %, demand for heating reduced by 40%.

One of our most important achievements of the hospital is wide international relations

President of Lithuania awarded head of Vyborg Hospital with the Governmental Medal

Hospital almost constantly displays art works of Estonian and Latvian artists

Collaboration with the Notwill Rehabilitation Center led to more analysis and evaluation of patients needs and investment in new equipment

The cooperation has helped to create and improve our hospital every day
