GENERAL INFORMATION

WiFi (Network key + browser user e password)

Connect to **BcWiFi** network choosing it from the list of available networks, and type the following password : **bocowifi**

Open the browser, you will be asked username and password; please type the following:

Username**hphbologna**.....

Password**bologna2018**.....

The network card of the device has to be set in DHCP and not in proxy.

SMTP server has to be the user's server with username and password.

It is possible to create a VPN with a client chosen by the user.

It is possible to use email programs, chat (es: Outlook, Skype, MSN, Facebook etc.).

IT IS NOT POSSIBLE to post on the web (PC, Cameras etc.).

Please keep Windows firewall running.

All the set-ups necessary to make the device connect to the Bologna Congressi WiFi network is at user's care. Bologna Congressi is not responsible for possible connection problems caused by set-ups and features of the user's device.

Please note that most of devices in stand-by mode turn off the network card , causing the disconnection from the wifi. The device will automatically reconnect when it is turned on. We recommend to turn off the "automatic standby mode"while you are in the venue.

Anyway, username and password will be required again after a 12 hours standby.

- Android devices: you might avoid disconnection by disabling "off when unplugged" and "off when screen off" options (in the sample picture they are checked, they must be unchecked).
- IOS devices: in many models it is impossible to avoid standby mode activation, if the device is not plugged to electricity.

LOCATION

Welcome to Bologna

Bologna is the capital and largest city of the Emilia-Romagna Region in Northern Italy, at the heart of a metropolitan area of about one million people. Bologna enjoys a privileged geographical position at a natural crossroads within both Italy and Europe.

Of Etruscan origin, the city has been a major urban centre for centuries. Home to the oldest university in the world, the University of Bologna, established in AD 1088, the city has a large student population that gives it a cosmopolitan character. In 2000, it was declared European capital of culture and in 2006, a UNESCO “city of music”.

Famous for its towers, churches and lengthy porticoes, today Bologna is a major industrial and commercial centre, the most important rail and motorway hub in the country, and after Venice the city with the best preserved old town centre in Italy. At the same time, it is surrounded by modern buildings, state-of-the-art exhibition, conference centres and new residential districts.

Tortellini, tagliatelle, lasagne and mortadella are just a few of the culinary delights that have made the city world famous for its gastronomic tradition and have earned it the epithet “Bologna the Fat”.

For accompanying persons including children, Bologna offers numerous museums and tourist attractions.

Weather

Bologna in June experiences pleasant and warm days with slightly cloudy sky and, now and then, the chance of some rain. Typically, temperature fluctuates around 22°C.

Shopping

Opening times on weekdays are 9:00 to 19.30, some until 20:00. All shops, with very few exceptions, remain closed on Sundays.

Currency and Credit Cards

The Italian currency is the EURO (€). Most hotels, restaurants and shops accept internationally valid credit cards.

Electricity

The current electricity used in Italy is 220 V, with 50 Hz frequency.

Public Transport

Bologna is a city on a human scale and in the historical center many distances can be fast covered on foot. An efficient public transport system allows to go quickly anywhere in the city. Visitors arriving at Guglielmo Marconi International Airport can reach the Central Station and the city center in a few minutes by the Aerobus – BLQ line. Different car rental services with driver and an efficient taxi service are available for visitors 24 hours a day.
