Welcome to Warsaw!

Warsaw – the capital city of Poland – is a city with unforgettable atmosphere! The city has a great history, climate and lots of monuments, it arouses curiosity with its individuality. It intrigues with its multifaceted culture – the mutual influence of Western and Eastern Europe. It has adopted changes brought by new epochs and preserved tradition at the same time.

Warsaw has been the capital of Poland for more than 400 years. Its story goes back to two siblings – Wars and Sawa who were nurtured by a mermaid. A mermaid with a sword and a shield is the symbol of the city. Population of Warsaw is nearly 2 million. It was nearly completely destroyed during World War II, by 1945 it was 75 % in ruins. The reconstruction of the city lasted until the 1970s, but some sections of the city have never regained their previous appearance.
